

FLEURI ROYAL

Photo HB-Henriot

This decor symbolizes Quimper's brush stroke and is closely linked to the HB-Henriot faïencerie's know-how. It takes up different techniques which have been established for generations by HB-Henriot's painters ceramists : the "sponging" and of course, the famous "à la touche" used to paint flowers. This decor has a unique particularity : each piece is different since the artist decorates and paints it depending on his inspiration. The only compulsory design is the flowers garland on the surround.
